EDUCATION

ABES Institute of Technology, BTech in Computer Science
JKG Internation School, Intermediate-CBSE
JKG Internation School, High School-CBSE

August 2023
April 2019
March 2017

EXPERIENCE

Flutter Intern, GroceryGo Pvt. Ltd. Mar 2024 – sept 2024
• Contributed to "GroceryGo," a Flutter app using Bloc and Clean Architecture, integrated REST APIs, and contributed to Agile processes for smooth releases.

Software Engineer 1, MAQ Software Aug 2023 – Mar 2024
• Reorganized Compete Reporting project for Microsoft, enabling competitor performance tracking using Azure Synapse Analytics and Synapse SQL. Created dynamic reports in Power BI for financial insights.

SKILLS

Languages: Dart, C, C++, NoSQL, MySQL, JavaScript

Technologies: Flutter, Firebase, RestAPI, Bloc, Provider, Node.js/Express.js, Git/Github, CICD, Clean Architecture

Operating System: Windows, Linux(Ubuntu)

Core Concepts: OOP, DBMS, DSA

PROJECTS

Real Time Chat Application [github.com/chat-app](https://github.com/nksharma123/chat-app)

- Designed and developed a fully functional mobile chat application with a focus on real-time communication.
- Implemented one-to-one chat functionality, allowing multiple users to communicate privately.
- Tools Used: Dart, Flutter, Node.js, Express.js, Socket.io, MongoDB, Bloc state management, Clean Architecture

Fruits and Vegetables E-Commerce Application [github.com/food-app](https://github.com/nksharma123/food-app)

- Created a mobile app enabling users to sign in via Gmail, add fresh products to wishlist or cart, and make purchases using Google Payments.
- Tools Used: Dart, Flutter, Firebase, Provider, Clean Architecture

Car Rental Application [github.com/car-rental-app](https://github.com/nksharma123/car-rental-app)

- Built an application, enabling users to rent luxury cars at affordable prices with real-time data management.
- Tools Used: Dart, Flutter, API, Bloc state management, Clean Architecture

Movie Info Application [github.com/movie-info-app](https://github.com/nksharma123/movie-info-app)

- Designed and developed a mobile application providing users with a streamlined trending, popular movies and search feature for quick access to essential movie information, including posters, titles, and detailed descriptions.
- Tools Used: Dart, Flutter, API, Bloc state management, Clean Architecture

Daily News Application [github.com/news-app](https://github.com/nksharma123/news-app)

- Designed and developed a dynamic mobile application enabling users to browse and read daily news articles from various countries and industry.
- Tools Used: Dart, Flutter, API, Bloc state management, Clean Architecture

ACHIEVEMENTS

- ICPC Regionalist 2021
- Rank 1 in CodeJam Organized by ABESIT
- Rank 1 in CODEBYTE 2.0 Organized by ABESIT
- Global Rank 8 (College Rank 1) in CODEHUNT Coding contest Organized by ABESIT
- Pupil (max rating 1226) on Codeforce
